

Superior™ PAPER HANDLING SOLUTIONS MAXIM RX Applications

RX-9s

GET MAXIMUM OUTPUT WITH YOUR INSERTER

There is a simple way to dramatically increase inserter output. Superior-PHS has designed several remarkably low-cost solutions for reducing inserter downtime and dramatically increasing productivity.

Inserting Staging Mode Presentation Feed into Open Track

RX-12cs

RX-9s Staging Mode / Inserter Feeder—\$1,595

RX-12cs Dual Mode Staging Feeder—\$2,895

Studies show as RX-9s like feeder in every inserter pocket increases throughput productivity by 30-40%. Replace your inserter hopper with the RX-9s for products up to 9" wide or the RX-12cs for products up to 12" wide. These feeders present a single piece of product and the inserter swing arm removes the piece. This dramatically reduces downtime due to inserter set up, miss and double feeds created by the inserter hopper. Consistently feed the widest range of materials including Z-fold, open fold, rigid products, and plastic cards.

RX-12bc

RX-12d One Shot Feeding into Open Track —\$2,950

RX-12bc Batch Count Feeding into Open Track—\$3,950

One shot or batch count feed into your open track with these remarkably low cost feeder options. Simple, economical, and a reliable choice for increasing throughput. The RX-12d runs in one shot and continuous modes for added versatility. Add an automatic dropper to the RX-12bc for fully automated high-speed batch counting of a wide range of product sizes and materials.

RX-9s/12cs/d/bc SPECS: Product sizes: 2"W x 3"L—12"W x 12"L, RX-9s up to 8.75"W x 6"L. Product thickness: .004" - .375". Maximum belt speed: 400 ft./min. Maximum stack height: 16-in. Utilities requirements: 115vac—3A—60Hz (220vac—50Hz optional on RX-12cs/d/bc only).
